

FastLMS Platform Guide

2026-08-19 | <https://lms.fastsmc.com>

Open-source learning management system built with . Python-first, no JavaScript framework — HTMX handles all interactivity. Features a 3-pane layout, AI tutor chat with SSE streaming, and Duolingo-style interactive elements (XP, streaks, badges, leaderboards, levels).

Help every learner make visible progress.

Build with the FastLMS API.

[Back to product](#)

DEVELOPER PLATFORM · API V1

Build with the FastLMS API.

Read the live demo database through a typed, versioned API. Selected integration writes are implemented behind bearer-token authentication.

[Open Swagger UI](#)[Open ReDoc](#)[Download swagger.json](#)[View on GitHub](#)

Public preview access. GET endpoints require no authentication. Writes return 503 until FASTSME_API_TOKEN is configured; enabled clients send Authorization: Bearer <token>.

Resources

Courses

Published learning courses and catalogue metadata.

```
GET /api/v1/courses
```

```
GET /api/v1/courses/{id}
```

Lessons

Course lessons, content types, duration, and XP.

```
GET /api/v1/lessons
```

```
GET /api/v1/lessons/{id}
```
